TracPipe[®]PS-II

Supplying Quality Engineered Flexible Metal Piping Products

For Industrial, Commercial, and Residential Applications Since 1975

Natural Gas • Propane • Diesel • Gasoline • Bio Fuels • Medical Gas

Omega Flex flexible corrugated metal gas piping systems are available in long continuous lengths which can be bent without the need for a fitting. This can mean less labor is required to install these products, plus fewer fittings means fewer potential leak points over rigid piping systems.

omegaflexcommercial.com

Long Flexible Lengths for Natural Gas, LP Gas, Diesel, Gasoline, Biofuels, and Medical Gas

- Seismic Resistance
- Corrosion Resistance
- Fewer Fittings
- Faster Install
- Inside or Outside
- Above or Below Ground
- Robust Single Jacket Design
- Long Lengths up to 500 feet
- Flexible and Bendable
- Single Source for All Your Gas Needs
- Sizes up to 2"

Pulls like wire through tight spaces with no fittings behind the wall or in the attic.

Seismic Testing and ICC Listing [ESR-4565](#) for MediTrac® CMT, CounterStrike® CSST, and DoubleTrac® double containment piping system.

Outside and underground options available.
